Rachit Kakkad

Full-Stack Developer

+91-82002-50915 · Kalol, Gujarat, India · kakkadrachit1@gmail.com
GitHub · LinkedIn · Portfolio

SUMMARY

Full-Stack Developer who designs, builds, and deploys end-to-end web products that solve real problems. Shipped 4 live applications, including a certification platform that cut turnaround from 7–10 days to 24–48 hours. Placed in 5 hackathons, including 2nd place at ElectroSphere and a national-level top-4 finish. AWS Student Builder Campus Leader who reached 300+ students, and open-source contributor. Focused on building secure, scalable, user-first software.

EDUCATION

B.Tech, Computer Engineering – Swaminarayan University, Kalol, Gujarat *Expected 2029* · SGPA 9.46/10

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C++, SQL, Go
Frontend: React.js, Tailwind CSS, Vite, React Three Fiber, HTML5, CSS3
Backend & DB: Node.js, Express.js, FastAPI, REST APIs, WebSockets, JWT, RBAC, MongoDB, PostgreSQL
Tools & Cloud: Git, GitHub, Docker, Postman, Figma, AWS, Vercel, Render

EXPERIENCE

AWS Student Builder Campus Leader *Jul 2026 – Aug 2026*
Amazon Web Services *(Certificate)*

- Reached 300+ students through 12 class announcements; delivered 2 mini-pitches on AWS learning resources.

Open Source Contributor *May 2026 – Oct 2026*
GirlScript Summer of Code 2026 *(Certificate)*

- Hardened 3 live repositories with input validation and output sanitization; merged 5 pull requests.

Freelance Full-Stack Developer *Jun 2025 – Oct 2025*
Confidential Client (NDA)

- Built an author collaboration platform solo: React, Node.js REST workflows, JWT auth, RBAC.

PROJECTS

AgriCert *React 19, Vite, Node.js, Express, MongoDB, JWT* GitHub | Live

- Built a full-stack agriculture certification platform with QR-based cryptographic verification, serving exporters, QA agencies, and customs across the full certification lifecycle.
- Cut certification turnaround from 7–10 days to 24–48 hours, raised first-pass accuracy to 99%, and enabled instant QR validation to prevent fraud.

CodingGita SeatOS *React, TypeScript, Three.js, Node.js, Express, Socket.IO, MongoDB* GitHub | Live

- Live seat sync for 118 seats across 2 classrooms using per-classroom Socket.IO rooms on a 3D frontend.
- Zero double-bookings via MongoDB unique indexes, atomic updates, geofencing, and rate limiting.

Sanjeevani *React, Node.js, Express, FastAPI, REST APIs* GitHub | Live

- Built an end-to-end hospital bill auditing platform, matching line items to 1,995 CGHS procedures.
- Shipped 6 REST endpoints across 4 free-tier platforms with fallback handling and rate limiting.

ThreatLens *React, TypeScript, Node.js, Express, MongoDB, JWT, Google OAuth* GitHub | Live

- Led full-stack build (31 core commits) with 7+ REST endpoints for auth, analysis, dashboard, and reports.
- Built a static analysis engine covering 6 OWASP-mapped vulnerability categories.

ACHIEVEMENTS

- **4th Place, National Finalist** – National Digital Identity & Innovation Hackathon 2025 *(Certificate)*
- **2nd Place** – ElectroSphere 2K26 (ThreatLens) *(Certificate)*
- **Top 6 of 150** – ECSoC Open Source Hackathon 2026 (Sanjeevani)
- **Finalist** – Odoo × Gujarat Vidyapith Hackathon *(Certificate)*
- **Finalist** – Odoo × LDCE Hackathon *(Certificate)*
- **Hackathon Organiser** – CodingGita *(Certificate)*
- **LeetCode:** 275 solved, rating 1,415 (Top 76.42%) *(Profile)*
